

Elevation Reference Point and Swing Ties

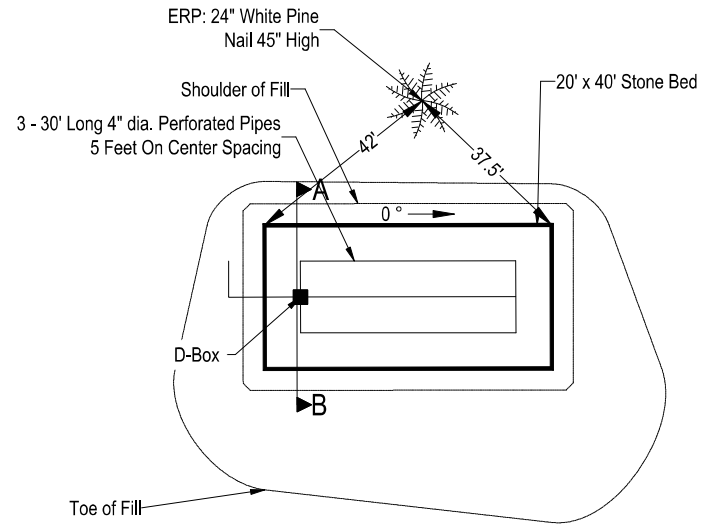

Elevation Reference Point

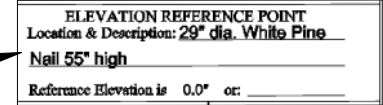

RESULT

Side Swing Tie is On

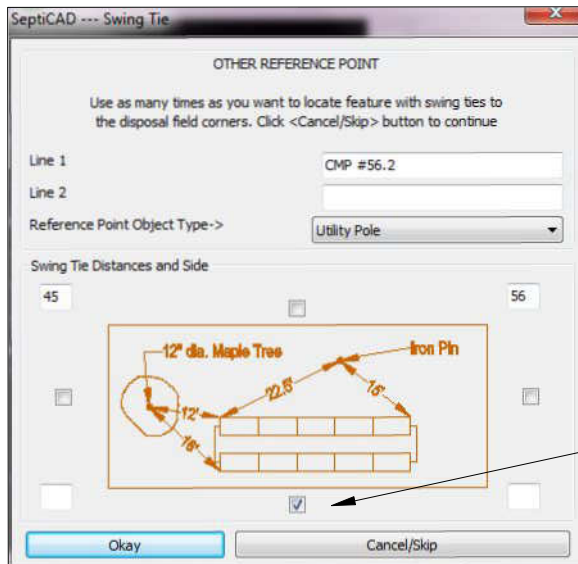

Typical Input into Elevation Reference Point (ERP) Window is also printed to HHE-200 Page 3

Note: If the ERP was not located by swing ties then leave all distances blank. A label will be printed to page 2 and 3 maps.

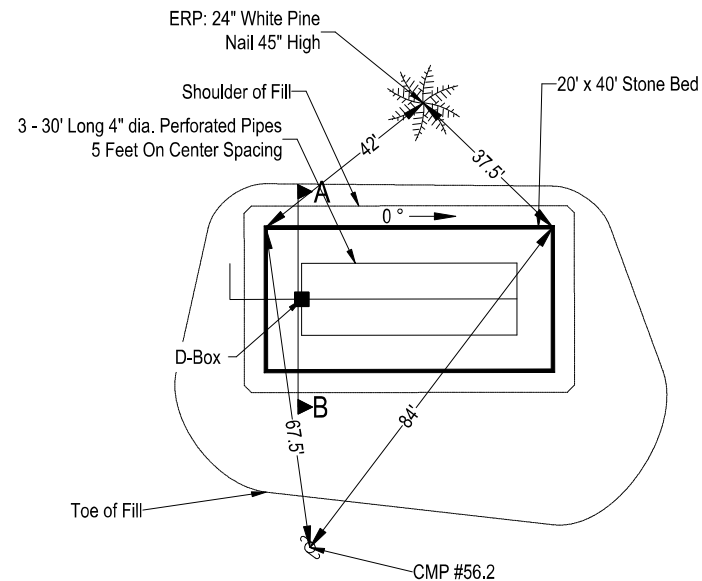

Other Reference Point

RESULT

Side Swing Tie is On

Note: If No other Swing Ties are available then Click Cancel/Skip Button.
